SCREW & NUT DRIVERS

TIGHTEN UP YOUR OSHA STANDARDS WITH OUR DRIVERS.

MECHANIC TIP

7/32" to 3/8" in Lengths to 10"

CABINET TIP

9/64" to 1/4" in lengths from 1-3/4" to 6"

PHILLIPS HEAD

#1 thru #3 in lengths from 1" to 8"

MAGNETIC TIP SCREWDRIVER

ANGLE NUTDRIVERS

1/2" to 3/4"

NUT DRIVERS

3/16" to 5/8" in lengths from 3" to 6"

SCREW HOLDERS

Grips, seats, and removes screws in and around hard to reach locations. Spring loaded tip holds screw firmly for seating and removal. Releases with a twist. Available in flat or Phillips tip.

SCREWDRIVER ROLL

6 pc. & 8 pc. • Custom

NUTDRIVER ROLL

6 pc. & 8 pc. / 3" & 6" lengths • Custom

SCREWDRIVER & NUTDRIVER ROLL

12 pcs. includes Roll

• All tools are double-insulated, tested to 10,000 VAC / 1500 VDC for Protection of People, Property and Productivity.
• SEE ILLUSTRATED PRICE LIST FOR DETAILS.

PLIERS

GET A GRIP ON THE JOB WITH OUR SAFETY PLIERS.

DUCK BILL

Smooth jaws with wide flat gripping area.

CURVED NEEDLE NOSE

An excellent tool for confined work areas and reaching between assemblies.

NEEDLE NOSE

Perfect for looping, cutting and forming wire. Cutting edges are induction hardened for long life.

DIAGONAL

Heavy duty for thicker gauge wire.

WIRE STRIPPERS

State-of-the-art wire strippers for solid or stranded wire.

LINESMAN

High leverage design for increased cutting and gripping power. New England styled head for easier access to tight areas. Cutting edges induction hardened for extended life.

UNIVERSAL LINESMAN

With crossover cutter, crimper, cross-hatched jaws for gripping and low profile head – good choice for limited access areas. Lighter in weight for greater operator comfort and control.

CABLE SCORING TOOL

Used to cut through exterior cable insulation to facilitate stripping. Used extensively on older underground systems with lead sheathed wire. Available with or without insulation. Cutting edges heat treated to RC 42-45.

CABLE CUTTING PLIERS

High leverage cutters with shear type blades for cutting 100 pair telephone cable, 4/0 aluminum, and 2/0 copper. Cutter with ring meets Bell spec number R3371D2.

PLASTIC PLIERS

Designed as a gripping tool to move and position wires and remove loose material from tight work areas. Grooved jaws for positive grip. Large handles and integral finger guards provide control and safety. Reinforced fiberglass is non-conductive.

CRIMPING

Two tools in one. Crimps solderless terminals and connectors ranging from #10 to 22 AWG. Also has wire cutter built into base.

SLIP JOINT

These pliers have milled teeth and jaws to provide positive gripping on a wide variety of objects.

WATER PUMP

Available in 10 & 12 inch lengths with a maximum capacity of 2".

• OSHA 1910.335 Safeguards for Personnel protection section (2) (i) . . . when working near exposed parts, each employee shall use insulated tools or handling equipment. • SEE ILLUSTRATED PRICE LIST FOR DETAILS.

WRENCHES

WRENCHES OF EVERY DESCRIPTION TO SIZE UP ANY JOB.

OPEN END WRENCHES

Both SAE & Metric sizes available from 1/4" to 1-1/8" and 6mm to 32mm

RATCHETING BOX WRENCHES

In SAE & Metric from 5/16" to 1" and 8mm to 19mm

BOX WRENCHES

Also available in SAE or Metric from 1/4" to 3/4" and 6mm to 32mm

RATCHETING "BUG" BOX WRENCHES

Available from 3/8" x 7/16" to 3/4" x 7/8"

"T" HANDLE HEX WRENCH

New ergonomically enhanced "T" handle for more comfortable use. Available in both SAE & Metric from 1/8" to 9/16" and 2mm to 10mm

LONG ARM HEX WRENCH

In SAE sizes from 1/16" to 1/2" and Metric from 1.5mm to 24mm

"T" HANDLE SOCKET WRENCH

Available in sizes from 5/16" to 13/16"

ADJUSTABLE WRENCHES

New fully insulated adjustable wrenches (8, 10 & 12") meets ASTM Specification. Standard insulated wrenches from 6" to 15"

All Double-Insulated Tools are manufactured in accordance with prevailing Standards: ASTM F1505-01 and IEC 900

• SEE OUR ILLUSTRATED PRICE LIST FOR COMPLETE DETAILS

HANDY TOOLS

TOOLS TO MAKE THE TOUGH JOBS EASIER AND SAFER.

BOLT CUTTER

General purpose cutter with alloy steel jaws and center cut blades for cutting materials with a maximum hardness rating of Brinell 455/Rockwell C48.

SECURE-A-TOOL LANYARD

Strong, convenient, safe. Prevents modified tools from being dropped accidentally from overhead work sites. Elastic cord interchangeable. Adjustable wrist wrap adjusts for comfort.

*For tether-ready tools add "ST" to each part number.

KNIVES

Heavy duty tempered steel blade for line work. Blade thru handle design for added leverage, control, and safety. Finger guards to prevent hand slippage and blade cap for storage.

HACKSAW

Welded steel frame has superior strength. 5-1/2" extra deep throat. Handle design allows user to wear insulating rubber gloves and protectors.

TAPE MEASURE

Non-conductive fiberglass tape measure. SAE & metric dual scale. Plastic housing with manual rewind. For use in "live" electrical panels, on bus bars, battery/ups; and areas requiring measurements that pose an electrical hazard.

INSPECTION MIRROR

Moveable faces for offset viewing. 12" handle

RATCHETING CABLE CUTTER

Designed for cutting aluminum and MCM copper cable. Cutting heads are finished in black oxide to minimize corrosion. On both tools a locking mechanism closes the handles for easy storage. **CAUTION: DO NOT USE TO CUT STEEL.**

TUBE CUTTER

Compact tubing cutter with extra-hard wheel and dual roller for square cuts on most plastic tubing. Maximum capacity is 1-1/2" OD.

UNIVERSAL TRIPOD & TUBE HOIST

All aluminum construction with a 500# rated capacity. Standard models equipped with 50' of synthetic braided rope. SS and Galvanized aircraft type cable is available. Each unit finished in Hi-Viz Yellow.

HOOK & PROBE SET

4 Piece set with 4 steel point configurations; straight point 90 bend, 45 bend, and hook bend.

NONSPARKING TOOLS

Tools of aluminum bronze for use in facilities where flammable vapors or combustible residual material is present. In addition to being non-sparking, these tools are non-magnetic and corrosion resistant. Refer to price list for selection and description. SAE and Metric sizes available.

NFPA 70E 2-3.7 Insulated Tool and Equipment: Employees shall use insulated tools and/or handling equipment when working inside the limited approach boundary of live parts where tools or handling equipment might make accidental contact. Insulated tools shall be protected from damage to the insulating material.

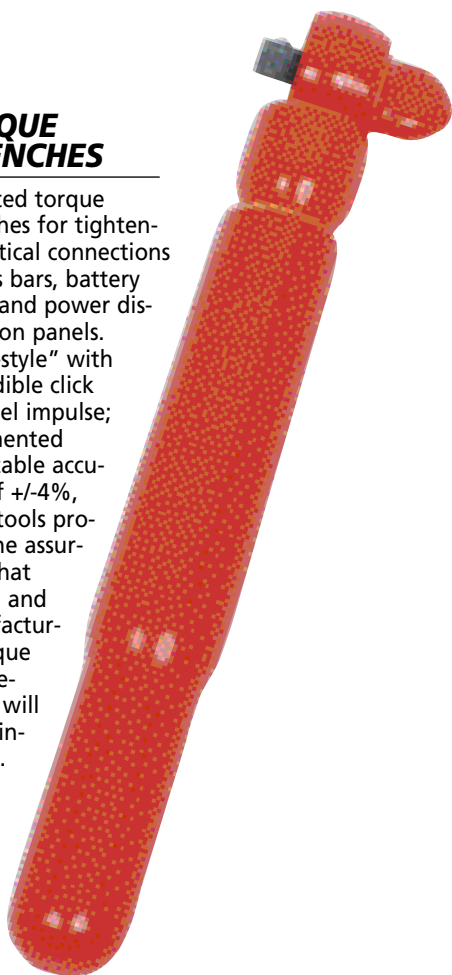

• **SEE OUR ILLUSTRATED PRICE LIST FOR COMPLETE DETAILS.**

SOCKETS, RATCHETS & EXTENSIONS

SAFETY AT EVERY TURN.

TORQUE WRENCHES

Insulated torque wrenches for tightening critical connections on bus bars, battery racks, and power distribution panels. "Click-style" with an audible click and feel impulse; documented repeatable accuracy of +/-4%, these tools provide the assurance that design and manufacturer torque requirements will be maintained.

TORQUE SCREWDRIVER

Range: 2-36 in. lbs.

RATCHETS

Available in deep drive and 1/4" 3/8" & 1/2" drive

SOCKETS

Available in two styles: STANDARD – Requires the use of an extension bar
FLUSH FIT – Attaches directly to ratchet or torque wrench

- Specify 6 or 12 point sockets
- Metric Sets • Custom Sets
- 3/4" & 1" SD available as special order

EXTENSION BARS

Standard End & Flared End
3/8" drive in 6 & 12" lengths
1/2" drive in 5 & 10" lengths

HEX BIT SOCKETS

3/8" drive from 1/4" to 7/16" and 1/2" drive from 5/16" to 1/2"

FIBERGLASS EXTENSION BARS

Custom made extension bars with a fiberglass shaft, completely removes end to end continuity. Fully insulated to provide bump protection for the metal end fittings. The units have been torque tested to 80 ft. lbs. and are rated for a maximum safe use of 60 ft. lbs.

OSHA 1926.416.29 CFR Ch. XVII (7-1-94 Edition): (g) Use of equipment. (1) Work on energized equipment. Only qualified persons . . . familiar with the proper use of special precautionary techniques, personal protective equipment, insulating and shielding materials, and insulated tools.

• SEE OUR ILLUSTRATED PRICE LIST FOR COMPLETE DETAILS.

Insulating rubber gloves are the first line of protection against electrical shock. Class 00, 0, 1 and 2 gloves are available in a full range of sizes to comfortably fit most employees. In accordance with OSHA Standard 1910.137(b)(2)(xii) Cementex Certifies that all gloves are dielectrically tested at time of sale. OSHA also requires gloves be dielectrically tested every 6 months.

GLOVE KITS CONSIST OF PROTECTORS, GLOVES AND CARRY BAG.

Also, available are Glove Inflators, Cotton Liners, Talc and Dielectric Testing and Retesting Service.

Daily use of a Cementex Glove Inflator will keep you in compliance with OSHA 1910.137 which states, in part, . . . "Insulating equipment shall be inspected before each day's use and immediately following an incident that can reasonably be suspected of having caused damage. Insulating gloves shall be given an air test, along with the inspection."

• CHECK OUR ILLUSTRATED PRICE LIST FOR DETAILS

PROTECTING YOUR MOST IMPORTANT ASSETS – PERSONNEL.

SLEEVES

Available from stock . . . a full line of insulating rubber sleeves and kits in Class 0, 1 and 2 as well as sleeve accessories including storage bags.

Also, available are insulating rubber blankets and kits in Class 0, 2 and 4 along with accessories. This includes ARC Suppression Blankets, Shielding Material Kits and Switch Board Matting in dimensional sizes or rolls up to 36 inches by 150 foot in length.

Blankets and sleeves are all dielectrically tested at the time of sale and in accordance with OSHA Standards must be retested every 12 months. This service is available from Cementex.

• SEE OUR ILLUSTRATED PRICE LIST FOR FULL DETAILS.

HOT STICKS

Telescoping Hotsticks, Clampsticks, ADA "Shotgun Stick", Universal Hot Sticks, Rescue Hooks and Switching Sticks are also available.

ARC SUPPRESSION BLANKETS

BLANKETS & ACCESSORIES

VOLTAGE DETECTORS

Voltage Detectors (240V to 230kV or 500kV) with case and shotgun adapter are in stock. Has multiple switch selection voltage ranges with audible and visual indication of live voltage. Includes 3 standard Alkaline C cell batteries.

PROTECTIVE CLOTHING

ARC FLASH PROTECTION

The industries most complete offering of superior quality safety "Task-Wear." Kits include: waist length parka, bib overalls with easy emergency access, hood with replaceable face shield, gloves and storage bag. Specify glove size when ordering.

COOLING VEST

For use with ARC flash suits.
