

SALES TECHNICAL SUPPORT

OVERVIEW Battery Power Systems, Inc. is an organization of DC Power Specialists committed to building solid long-term client relationships based on a dedication to excellence. For over 20 years, BPS has been the Northwest's leader in providing superior DC power services to major corporations in the telecom, utility, and data processing fields. We are currently looking for technical support personnel to augment our sales team.

SUMMARY OF FUNCTIONS Review customer specifications and project requirements. As required, interview customer engineers to determine power needs. Formulate recommendations and submit to sales team. Provide phone support and assist with troubleshooting equipment difficulties. Occasional local travel to perform site evaluations required. Industry and product training is available.

EDUCATION & EXPERIENCE

- High school diploma or GED equivalent required.
- Applicants should be mechanically and technically inclined
- Background in construction, industrial maintenance, electronics, or related military experience
- Strong written and verbal communication skills required
- MS Word & Excel

QUALITIES

- Effective time management and organizational skills
- Successful applicant will be positive, adaptable and a team player.

ADDITIONAL REQUIREMENTS

- Must demonstrate ability to meet expectations while under pressure with distractions from overlapping functions.
- Extensive use of computer keyboard.
- May use telephone for extended periods of time.
- Availability for overtime as required.
- Candidates must pass pre-employment drug screen and background check.

BENEFITS Include medical, dental, vision, short / long term disability, vacation, holiday, paid no-fault time, travel compensation, 401K, and a skills based promotional system. Our team members enjoy a greater sense of contribution knowing that their talents directly impact the growth of the company.

HOW TO APPLY
